

WIRELESS HIFI SPEAKER SYSTEM

# PREMIUM CLASS SC-CX700

Combining Technics' legendary audio expertise with elegance and style, the SC-CX700 redefines the modern entertainment system, allowing users to experience music like never before.

**Balanced Driver Mounting Architecture (BDMA)** eliminates vibration

**New** **Harmonious Phase Precision Driver** with Feathery Ring Tweeter and Natural Wave Equalizer for unwanted reverberation

**Powerful, Dynamic Stereo Sound** thanks to Technics' JENO Engine and a total music power of 180W

**Model Based Diaphragm Control (MBDC)** for a pure and undistorted sound image even at high volumes

**HDMI ARC** for easy integration of multimedia home entertainment

**Sophisticated Enclosure Design** with softened edges and a premium touch and feel

**Rich Connectivity and Features** incl. Chromecast, AirPlay 2, Wi-fi, Spotify, TIDAL, Deezer, Amazon Music HD, and more

Rediscover Music

**Technics**

The new SC-CX700 Wireless HiFi Speaker System offers ultimate source flexibility and connectivity, superb sonic performance, and a modern design with a sophisticated touch and feel.

### Rich Connectivity and Features for Maximum Flexibility and Seamless Operation

Wide range of wireless, wired and online connectivity options make this product the ultimate home audio system for the whole family.

**HDMI ARC**   **Spotify**   **Internet Radio**

**Bluetooth**   **Spotify |**   **works with Google Cast**

**amazon music**   **qobuz**   **works with Apple AirPlay**

**DEEZER**   **TIDAL**   **works with Google Home**

**CONNECTIVITY**

Line Input x1   Digital Input x2   Phono [MM]   Subwoofer Out

### New Technics Audio Center App (TAC) with Simplified Setup

Enjoy intuitive control of your Technics devices, now with improved easy setup.

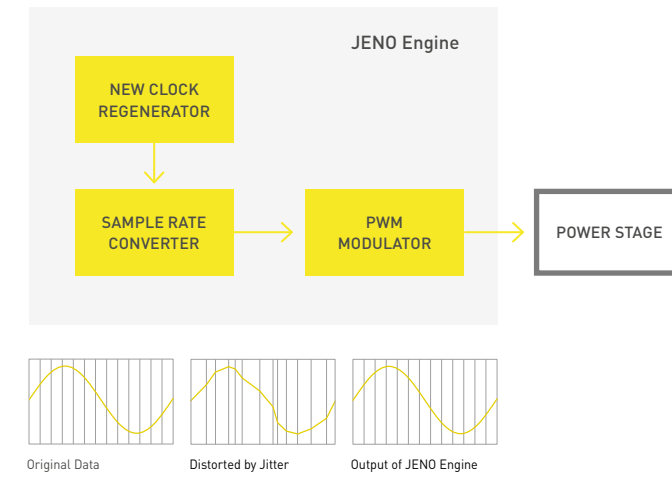

**Technics**

Technics Audio Center for Smartphones (iOS, Android)

### Technics' Full-digital Amplifier Technology for Highest Signal Purity

Inheriting the reference-class audio technology concept, the JENO Engine (Jitter Elimination and Noise-shaping Optimization) transmits and processes audio signals in full digital and with minimal jitter from the input stage to the power stage.

Rigid enclosure construction and Soft Edge design with baffle coating made of Suede for a clear performance free of vibrations and for effective dispersion of reflected sounds.

Setting a New Standard for Contemporary Entertainment Systems.

### Low-noise Phono (MM) Equalizer for Superb Enjoyment of Vinyl Record Playback

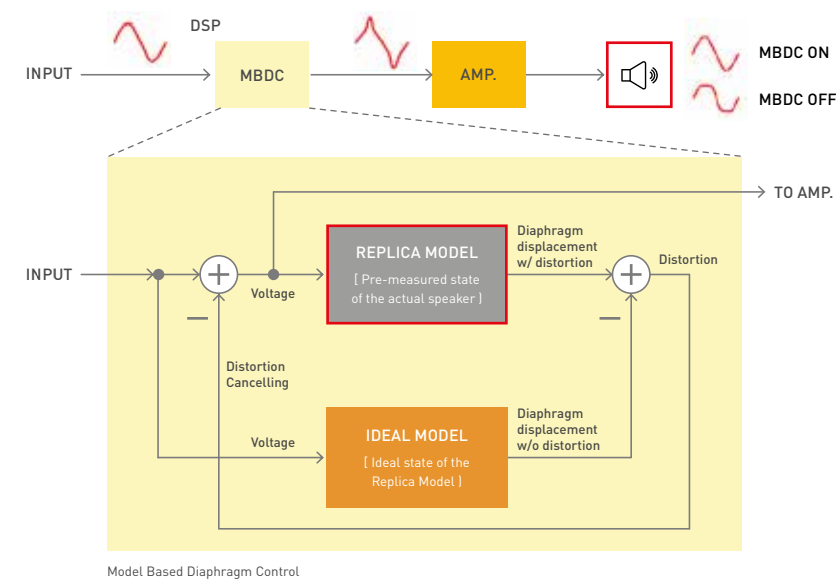

### HDMI Audio Return Channel (ARC) for Easy Integration of Multimedia Home Entertainment

New compact remote controller

### Model Based Diaphragm Control (MBDC)

New digital signal processing technology (DSP) to ideally drive the speaker diaphragm by correcting the difference between the pre-measured "Replica" and the ideal model, thus preventing unwanted harmonics.

New Harmonious Phase Precision Driver with Feathery Ring Tweeter and Natural Wave Equalizer for unwanted reverberation for linearized frequency response without unwanted reverberation.
